
MOVED.

This file was Model Act v2 (August 2026).

The current version is v3.2, and this repository has been reorganised.

Everything lives at the repository root:

github.com/Ilmaolaw/model-act

There you will find: the current act (model_act_v3_2.pdf), the plain-text twin, the companion regulations draft, the drafting notes, and the full version history. v2 itself is preserved, unchanged, in the /archive folder.

Nothing was deleted. Statutes keep their history. So do we.
